

THE South-Carolina Gazette.

Containing the freshest Advices Foreign and Domestick.

FROM SATURDAY June 9, to SATURDAY June 16, 1739.

FOREIGN AFFAIRS.

AUTHENTICK Advices from Paris say, that the Emperor designs to dispose for Two Millions of Pistoles of the Dutchies of Parma and Placentia to the Court of Spain, which it's said, will form a Dominion of them for the Infant Don Philip, to whom likewise we are assur'd that the Island of Corsica will be given; for which, as well as some ancient Claims that the Republick of Genoa has upon the Crown of Spain, Satisfaction will be made. The Privilege of the French Ships trading to New-Spain, it's not question'd, will be one of the Advantages that will be a Consequence of the Marriage of the eldest Madam; and also that Spain, in acceding to the Treaty of Vienna, shall not Guaranty the Pragmatick Sanction.

Certain secret Propositions are talk'd of that the Court of France is about making to the King of Prussia, which it's pretend'd will be very advantageous to him. This is an apparent Artifice to prevent the Success of the Negotiations which are upon the Tapis between the Courts of Great-Britain and Prussia, for forming an Alliance; which was likely to be strengthened by the Concurrence of the Crowns of Denmark, Poland, the States General, and other Princes. Whether it be with this View or not, it's certain that M. de la Chetardie will return speedily to Berlin.

They write from Amsterdam, that the States of Holland continue their Assembly in which the Means should be determin'd on for raising Sums sufficient to supply the

annual Expence of the Province. This Affair, about this Season every Year, meets with great Difficulties, some of the Members being dispos'd to abolish certain Taxes; others are rather inclinable to increase them; and others again for continuing Things upon the same Footing they are at present; every one proposes such Expedients for improving the Finances as will best suit his own private Interest: In short, they Dispute and Wrangle with great Obstinacy, but conclude upon nothing. This however is certain, that there will be no Diminution of Taxes, because the Finances of the Province are still greatly in Debt, the clearing of which has been an insuperable Difficulty to the two Grand Pensioners who succeeded M. Henfius, tho' both of them great Ministers and able Financiers. It's said that the Prince of Orange having at last condescended to accept of the Station of Lieutenant-General, the Promotion which the States-General are to make of Military Officers, will now be no longer delay'd, the Reasons for their High Mightinesses deferring that Affair during so great a Length of Time no longer subsisting.

The States General, as well as several European Courts, are very much chagrin'd at the News of the Alliance lately form'd between France and Spain, and with the Promotion of the Archbishop of Ambrun to a Cardinal's Cap. It's apprehended that Cardinal de Fleury designs this intriguing Prelate, who is of an enterprising Genius, exceeding subtle and very haughty, for his Successor in the Ministry.

It's reported here, that the Court of Vienna

Vienna, is greatly dissatisfied with that of Russia, which has failed of fulfilling the Engagement it was under of sending 30000 Men into Hungary, pretending the Impracticability of their marching thro' Poland. The Emperor has made very pressing Representations upon this Subject, and has refus'd to accept of the two Millions of Rubles that the Empress of Russia offer'd him as an Equivalent.
